**Subject:** RE:

Most recent review was for Period May '11. Just distributed yesterday.

Logansport IOE (index of operating efficiency – an ‘agri’ term for adjusted EBIT) was \$14.71/cwt hot wt. The ‘West’ (our region for “Tyson”) was \$12.96/cwt hot wt.. Region includes :

JBS (Marshalltown) est IOE \$21.35/cwt hot wt  
Seaboard (Guymon) est IOE \$17.03  
PSF - Farmland (Milan) est IOE \$12.33  
Triumph (Saint Joe) est IOE \$12.51  
Farmland - Monmouth est IOE \$9.82  
Cargill - Beardstown est IOE \$6.76  
IPC – Delphi est IOE \$5.58

Basis above, your \$14.71/cwt hot...exceeds the avg of the West region (\$12.96)...and exceeds all locations except JBS and Seaboard.

There are also some ‘eastern’ locations within the study...these locations (geographically) could be considered ‘your region in Logansport’; Locations are

Smithfield – Clinton, NC est IOE \$13.41/cwt hot wt.  
Hatfield – Hatfield , PA est IOE \$14.83  
Smithfield – Tarheel, NC est IOE \$6.88  
Smithfield – Smithfield, VA est IOE \$3.99

Basis above, your \$14.71/cwt hot ... exceeds three of the four eastern locations.....Hatfiled (at \$14.83) is ahead of you slightly....

Combining all 11 locations and adding Logan for #12, your overall ranking is 4th for May '11!!!!!!

Good luck with your Mr. Lochner call tomorrow....you will do well!!! J Debbie
